Opposition No.: 91224074

**UNOPPOSED MOTION TO AMEND U.S. APPLICATION SERIAL NOS. 86/508,475,
86/508,491 AND 86/508,548**

Pursuant to 37 C.F.R. § 2.133(a) (2009), Kore, Inc. ("Applicant") hereby requests that the Trademark Trial and Appeal Board (the "Board") approve its amendment to the identification of goods described in its pending application to register KORE (Application Serial Nos. 86/508,475, 86/508,491 and 86/508,548), which are currently the subject of an opposition filed by eOriginal, Inc. ("Opposer") (i.e., Opposition No. 91224074), so as to read:

Class 009 "Computer software for providing a messaging platform for bots that enables instant messaging, sharing, networking and collaboration between individual users, members of discrete groups, such as teams within an organization, individuals, and teams across entire organizations"

Class 0042 "Providing software as a service (SAAS) featuring software that serves as a virtual agent enabling persons to accomplish tasks across disparate applications and systems; and as a messaging platform for controlled communication and collaboration available for use on a smartphone, tablet or computer"

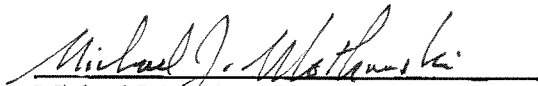

The requested amendment conforms with 37 C.F.R. § 2.71(a) (2009) because it clarifies and limits the identification without broadening or adding to the description. This Request to Amend is made as part of the settlement of Opposition No. 91224074 and with Opposer's consent.

Wherefore, Applicant respectfully requests that the Board grant its amendment to the identification of goods description in Application Serial Nos. 86/508,475, 86/508,491 and 86/508,548.

Respectfully submitted,

KORE, INC.
